## GREETINGS FROM CHILDREN GARDEN

School Assembly at the Children's garden

## MAIN OBJECTIVES

- Provide basic needs and Parental care and love for the orphans destitute children
- Provide non-formal and vocational education
- Offer spiritual guidance and counseling services to children
- Create awareness and impact of HIV/AIDS on the youth

## About us

CHILDREN'S GARDEN HOME is a community based, non-governmental, non-profit making charitable organization for street children, orphans, abandoned, abused, desperate and neglected children regardless of their religion, sex, colour or tribe, through parental love, spiritual care, rehabilitation and offering formal education to nourish their potential capabilities and personal capacity

building, Through a myriad of activities such as non formal education, psychosocial support and vocational training as a means of training responsibility to the children and agriculture. Children's Garden Home has endeavoured to

Facilitate holistic care and rehabilitate children morally through character behaviour transformation. We provide residential care and rehabilitation for parentless children most of whom are affected by HIV/AIDS and street children in Kawangware, Kangemi and kibera slums, Nairobi Kenya. Currently the homes cater for 250 children with 20 having been successfully integrated back

## Donors Projects

### PRESSING NEEDS

We seek sponsors to help us with the followings:

- Building a secondary school block and laboratory.
- Providing medical care, regular check-ups and basic medicine for the children.
- Sponsoring salary of teachers and staff for stable development.

Form three class students

Students Demonstrating to visitors about slow food farming

### volunteers and Partners

This year so far we have had volunteers from different parts of the world, who have been very helpful to us in many ways. We also had quite a number of local volunteers from universities across the country who helped us in many ways. Our doors remain open to any volunteer who wants to put a smile on the face of the children.

### Slow Food farming

We do grow various crops on our farm i.e. kales, cabbages, beans and yams. These we use for domestic purposes as vegetables for students thus cutting costs. Slow food programme has been a blessing for us as we have been able to diversify into other crops while utilizing the space we have.

Beans in the garden (organic farming)

## The on going projects

Beads project

Projects Requiring Donor Support and Partnership. *i.e.* construction of high school block, to accommodate the ever increasing needy cases. 50 double Decker beds for the ever increasing number of orphans and street children. Food *i.e.* maize, beans, oil, and Rice to ensure food security and balanced diet. New and used computer to impart IT skills to these children. Salary for 20 teachers/staffs in order to motivate them to work even harder. Laboratory equipment *i.e.* microscope, Bunsen burner, pipette, burette. Sewing machine to impart practical sewing skills to students

Flour Mill– supports the home in terms of milling & income project which caters for electricity bill

One of the two cows that provides milk for children

Ms. Veronica in tailoring and needle work class

Sanitation and Hygiene (Exhauster emptying the school toilets)
